DETAILED ACTION

Allowable Subject Matter

Claims 1-2,5-10,15-18,21-26,31 and 59 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art either taken singularly or in combination fails to disclose a capillary structure comprising a plurality of particles joined together by a brazing compound comprising about sixty-five percent weight copper and thirty five percent weight gold or a wick comprising a plurality of aluminum and magnesium particles joined together by an aluminum/magnesium intermetallic alloy brazing compound. Applicant's argument in Remark filed 10/27/2005 regarding the aluminum and magnesium particles with their alloy is persuasive.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
